

**MASTERS OF
PREMIUM RANGE
SILICONE** PRODUCTS

■ FOR **MEDICAL & HEALTHCARE** INDUSTRY

2025

Soaring high in the silicone manufacturing market, SEVITSIL has emerged as one of the leading companies in the industry, driven by a passion for excellence and innovation. We believe that perfection isn't a benchmark, it's a habit - and every product we deliver reflects that commitment.

2017

The third generation joins with the vision and drive. Building on a robust foundation of technical expertise and trust, the new leadership began expanding operations, enhancing digital capabilities, and setting a bold course towards marking SEVITSIL's presence in the global silicone market.

2005

A revolutionary year for SEVITSIL - having already earned a strong name in the industry, we took a bold leap forward by investing in specialized R&D equipment to deliver precise, innovative silicone solutions tailored to our customers' needs. And created Clean Room Class 10000 to cater critical medical industry needs.

1992

We had become a trusted name known for legacy of excellence, expertise and deep industry knowledge. Returning to our roots in Mehsana, we established a huge manufacturing unit for Silicone and Viton rubber processing. As the second generation took charge, we expanded rapidly, building a stronger team and launching our new brand identity - SEVITSIL.

1975

SURESH ENTERPRISES - a family-owned venture by four visionary brothers - each a seasoned expert in different segments of the rubber industry. United by a shared commitment to quality and innovation, they laid the foundation with a single goal: to serve the government's specialized silicone component needs with precision and reliability.

SEVITSIL HISTORY

ABOUT SEVITSIL

A pioneer in India's silicone products manufacturing industry, we specialize in high quality silicone solutions for varied applications. With over five decades of expertise, we are committed to innovation, unparalleled precision, reliability and customer satisfaction.

**TRUST US
FOR
MEETING
ALL YOUR
SILICONE
NEEDS.**

WHY SEVITSIL

Zero Defect Policy

Knowledge and experience

Unmatched technical capabilities

Maximum after sales support

Dedicated CRE team for all your questions

SILICONE ENGITECH SERVICES

Owing to our unmatched technical capabilities and the experience we hold in SILICONE INDUSTRY, we offer, companies and start ups, consultancy services for new product development and also 2D detailed drawings for curating problem solving innovative products.

50+

years of experience in
silicone products manufacturing

350+

team strength comprising of rubber
technologist and industry experts

600+

tonnes of raw silicone is
processed annually at our units

35+

countries as our export destination
and still spreading wide

40+

million meters of silicone
tubings supplied every year

18+

industries are served with our
top notch products

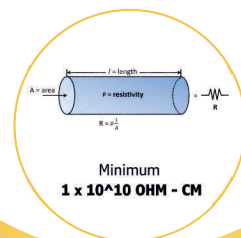

1700+

clients served with premium
silicone product

12000+

SKU products developed for our
customers

tubing

MEDICAL SILICONE TUBINGS

Delivering the most comprehensive range of medical-grade silicone engineered for unmatched safety and performance. From Asia's tiniest tubing to the broadest spectrum of sizes, our decades of technical expertise ensures precise, reliable solutions for every medical need.

CannuSil[®] Tubing

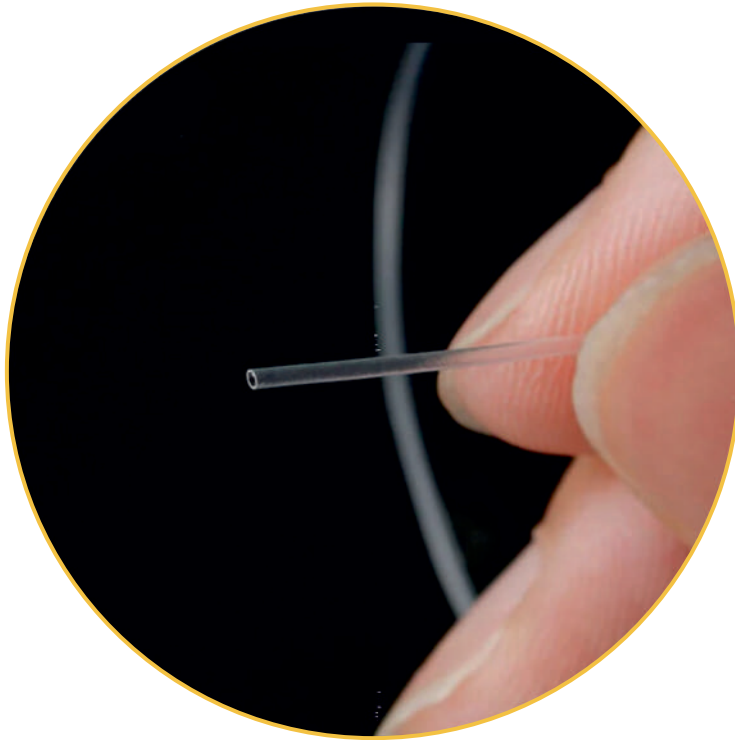

Platinum Cured Silicone Tubing for IV Cannula Applications

CannuSil tubings were first manufactured in 1992, ever since the inception of IV cannula was to be **Made in India**, we were committed to deliver excellence, by understanding the application & criticality of these tubes and fulfilling all the regulatory compliances. Since 3 decades, our **CannuSil tubing** has the finest tolerance & consistency which enables it to be used all over the world by most of the manufacturers.

TinySil® Tubing

Platinum Cured Silicone Microtubes

Smallest Size - 0.10 mm ID (100 microns)
with wall thickness of
0.20 mm (200 microns)

SEVITSIL manufactured TinySil is
the tiniest tubing in Asia & second
smallest in the whole world.

APPLICATIONS

- Micro Fluids
- Pediatrics
- Micro Analytics
- Drainage Devices
- Ophthalmic Surgery

BENEFITS

- Odorless and Tasteless
- Non-Toxic and Low Stimulation
- UV and Heat Resistance
- High Tensile Strength and Flexibility

 SiliTrans[®] Tubing

Platinum Cured Silicone Tubes for Fluid transfer & Peristaltic Applications

APPLICATIONS

- Fluid Transfer
- Filling Machine
- Single Use Application
- Chemical Analyzer
- Peristaltic Pump

BENEFITS

- Excellent Tear Resistance
- Fatigue Resistance
- Anti Aging and Antioxidant Properties
- Sterilizable and Autoclavable
- High Purity and Low Contamination

SiliPure[®] Tubing

Platinum Cured Silicone Tubes for Various Medical Applications

APPLICATIONS

- Implantations
- Ophthalmic Surgery
- Irrigation Sets
- Endoscopic Surgery
- Bariatric Surgery
- Cardiac Surgery

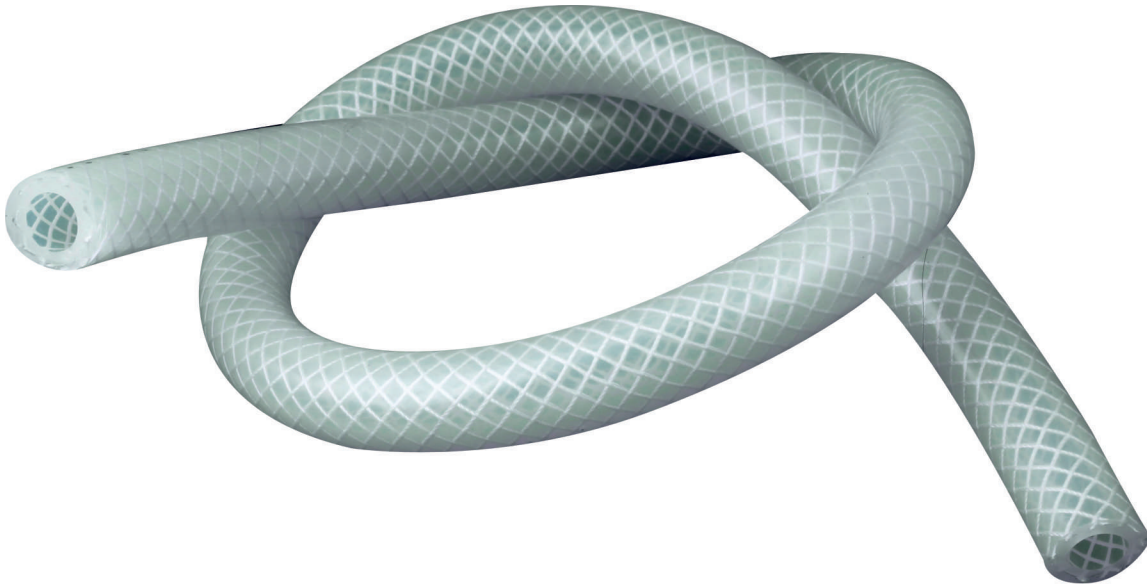

BENEFITS

- Low Volatile Grade
- Biologically Inert
- Non-yellowing
- Facilitate Cell Culture
- Biomedical Grade Silicone

SiliBraid® - Silicone Braided Hose

For High & Low Pressurized Fluid Transfer Applications

APPLICATIONS

Tube Size (Inch)	Tube Size (mm)	Max. Working Pressure (bar)	Min. Burst Pressure (bar)	Min. Bend Radius (mm)
1/4	6 x 13	10	30	50
3/8	9 X 16	8	25	80
1/2	12 X 19	7	20	80
3/4	19 X 27	6	18	120
1	25 X 35	5	11	160
1.5	38 X 48	2.5	8	300
2	50 X 60	2	6	As Per Request

- Peristaltic pumps and infusion systems
- Hemodialysis machines and blood filtration systems
- Ophthalmic surgery and devices
- Surgical instruments and devices
- Ventilators
- High pressure application
- Anti bulging application

AnekSil® Tubing

Platinum Cured Silicone Multi Lumen Tubes for Catheters & Custom Workabilities

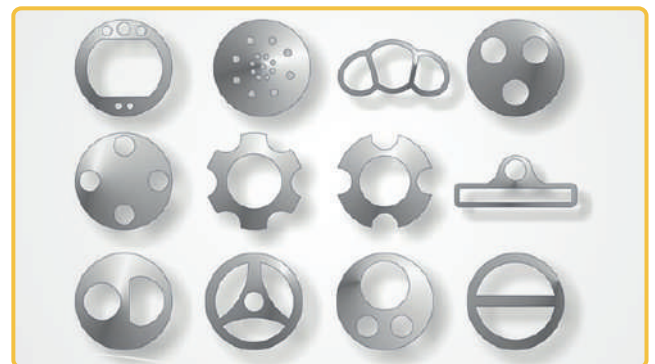

We can elevate your design and do more in less space.

BENEFITS

- Biocompatibility
- Visual Clarity
- High Tensile Strength
- Kinking Stability
- Flexibility and Reusability
- UV Resistance

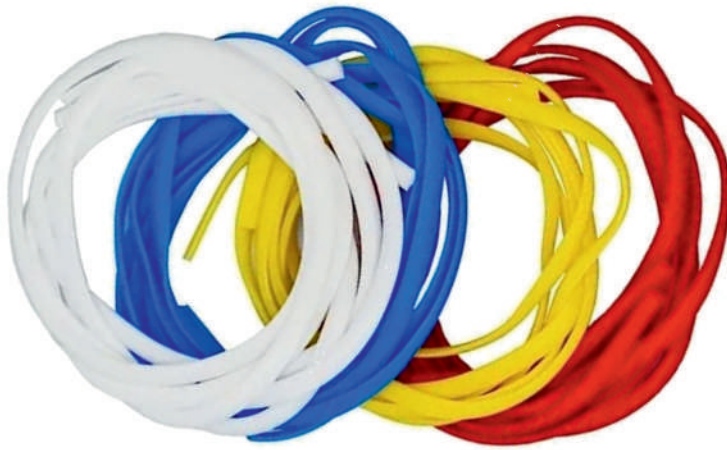

In many medical procedures, more than one activity takes place through the same device. AnekSil tubings have the cutting-edge technology required to produce extremely high-quality catheter tubings, capacity to make 12 lumen tubes can assure you that your requirements will be fulfilled here.

Silicone Vessel Loop

Platinum Cured Medical Grade Silicone

Silicone Vessel Loops are used in complicated surgical procedures by offering retraction, occlusion, and identification of arteries, nerves, veins, tendons or ureters.

BENEFITS

- Flexibility
- Biocompatibility
- Non-absorbable
- High Tensile Strength
- Color-Coded
- Reusability
- Radiolucency
- Ease of Handling

APPLICATIONS

- Vascular Surgery
- Cardiovascular Surgery
- Urologic Surgery
- General Surgery
- Plastic and Reconstructive Surgery

AVAILABLE IN FOUR COLORS

Red for artery

Yellow for nerve

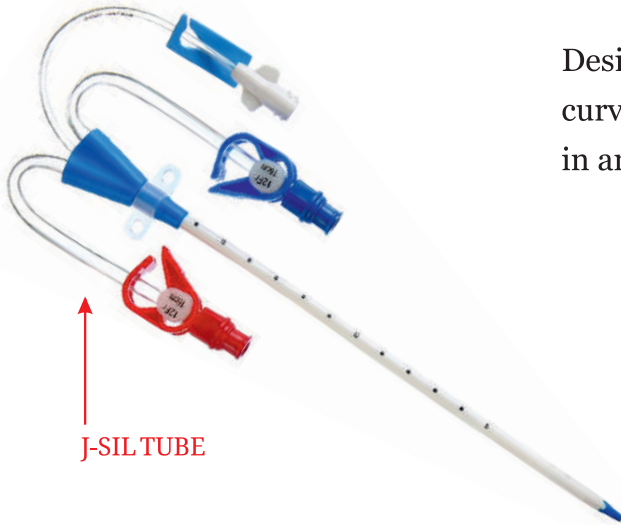

Blue for vein

White for tendon

J-Sil[®] Tubing

Platinum Cured Silicone J -type Tube for Hemodialysis Catheter

Designed with modern technology, J-Sil TM tubes have curved ultra smooth bore diameter enabling transfer blood in and out with a consistent flow.

SiliSuck[®] Tubing

Platinum Cured Tubing for Suction Machines Applications

SILISUCK

Silicone suction tubes are used for removal of secretion from mouth, trachea and bronchial tube. Manufactured from non toxic and non irritant medical grade silicone compound. Distal end is open with one lateral eye for effective drainage. Proximal end is provided with a connector for easy connection to the suction equipment. Funnel connectors are color coded for instant size identification.

 Radio-Sil[®] Products

Platinum Cured Silicone Radio Opaque Products for Medical Devices & Equipments

APPLICATIONS

- Catheters
- Tubing
- Orthopedic Joints Implants
- Stoppers
- Cardiac Implants

BENEFITS

- Improved Visibility
- Precise Positioning
- Biocompatibility
- Enhanced Traceability

 SurePrene[®] - TPE Tubing

APPLICATIONS

- Sterile Filling
- Vaccine production
- Peristaltic Pump
- Pharmaceutical sampling

BENEFITS

- Very Low Spallation
- Prolonged Pump Life
- Broad Chemical Compatibility
- Low Absorption Characteristics

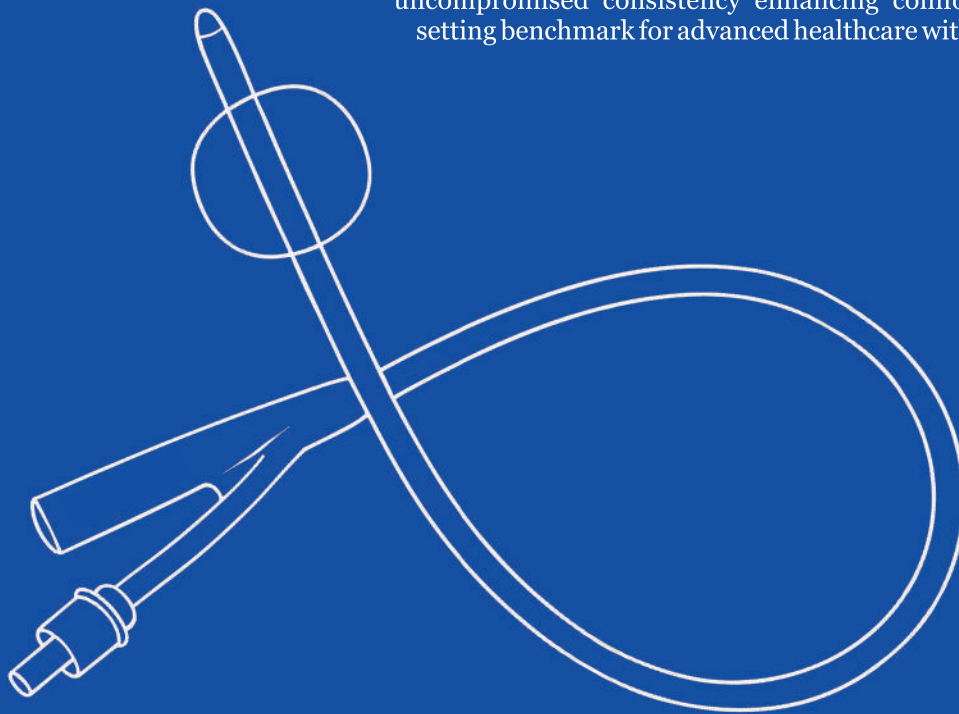

Redefining Reliability, with precision in every flow

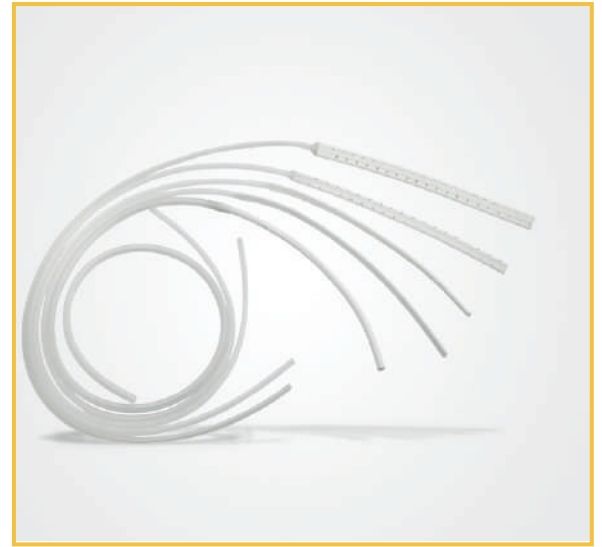

catheter

SILICONE CATHETER SOLUTIONS

Designed with utmost accuracy for easy flow testing with rigor for uncompromised consistency enhancing comfort and supporting lives setting benchmark for advanced healthcare with our catheter range.

SiliDrain[®] - Silicone Drainage Tube

Silicone drainage tube is used in treatment of blood or air circulation and drainage which has superb characteristics like odorless, tasteless, non-toxic, low stimulation, long shelf and chemical resistance. This tube can be sterilized by ethylene oxide, gamma radiations, steam autoclaving.

DRAINAGE TUBE RANGE

- Silicone Flat Drain
- Silicone Blake Drain
- Silicone Redon Drain
- Silicone Thorax Drain
- Silicone Straight Drain
- Silicone Sump Drain
- Silicone T Drain
- Silicone Penrose Drain

APPLICATIONS

- Drainage
- Catheterization
- Air Circulation
- Fluid Circulation
- Injection
- Blood Transfusion
- I.V. Injection
- Treatment of Blood Circulation

Yankauer Suction Tube

AVAILABLE SIZE

5 FG to 24 FG

Length : 500 MM

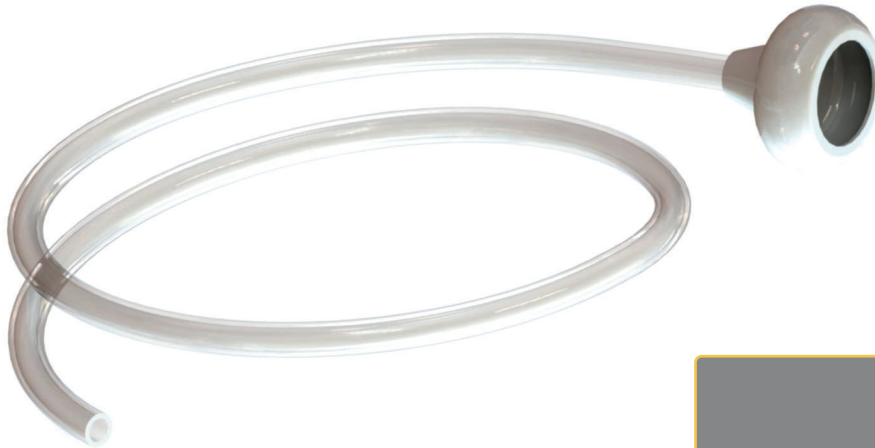

APPLICATION

- Aspiration Prevention and Treatment
- Maintaining a Patent Airway in Hospital Settings
- Management of Chronic Respiratory Conditions
- Treatment of Respiratory Emergencies
- Pediatric Airway Management
- Treating Patients With Artificial Airways

Silicone PEG Tube

Percutaneous Endoscopic Gastrostomy Tube for External Feeding

With bolster and without bolster variation available.

AVAILABLE SIZE

16 FR, 18 FR, 20 FR, 24 FR

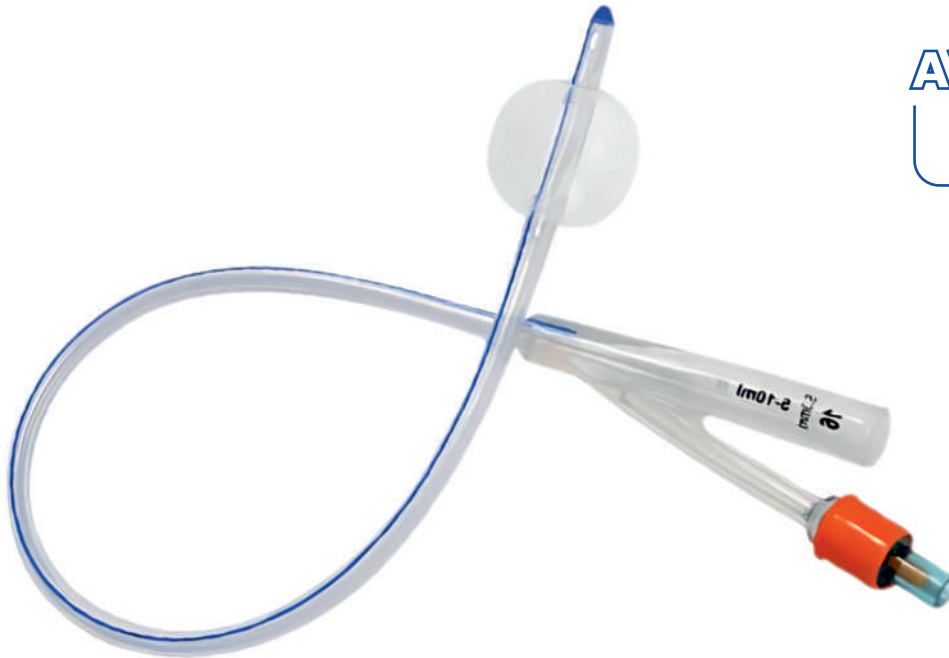

- Customization is possible as per your sample or drawing.

Sevitsil manufactures premium quality of PEG tube. We also manufacture bolster gasket which is used to support PEG Tube properly. So, while cleaning PEG Tube it does not get removed from the internal body.

SiliCath® - Two Way Silicone Foley Balloon Catheter

For High & Low Pressurized Fluid Transfer Applications

AVAILABLE SIZE

14 FR, 16 FR, 18 FR, 20 FR

BENEFITS

- Bio-compatibility
- Soft and Flexible
- Reduced Encrustation and Blockage
- Lower Friction
- Enhanced Drainage
- Reduced Risk of Balloon Bursting
- Longer Duration of Use

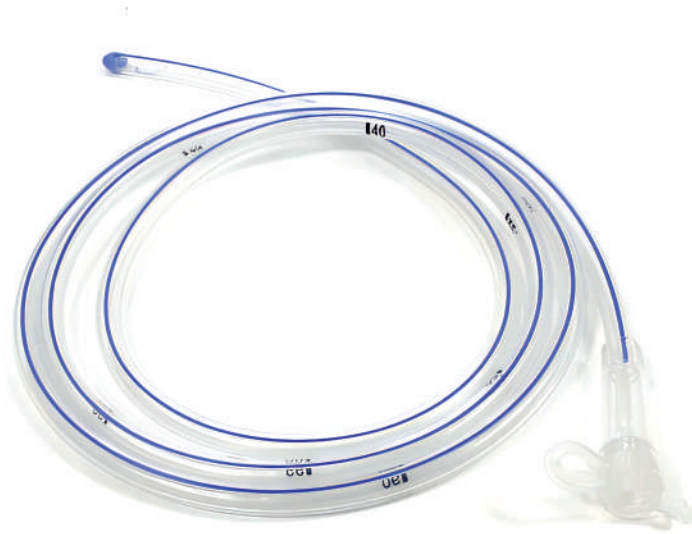

APPLICATIONS

- Urinary retention
- Postoperative care
- Bladder irrigation
- Accurate measurement of urine output
- Palliative care

FEATURES

- 100% Made of silicone
- Color coding for size identification
- Sterilized by EO (Upon Request)
- For single use only

Silicone Ryles Tube

AVAILABLE SIZE

16 FR to 24 FR

APPLICATIONS

- Nutritional feeding when oral intake is not possible
- Aspiration of gastric/intestinal secretions
- Relief of gastric distension
- Medication administration
- Medication administration

Silicone Calibration Tube

Silicone calibration tube is a specialized sterile device mainly used during bariatric surgery, especially for sleeve gastrectomy and gastric bypass, to calibrate gastric pouch size and perform leak testing.

FEATURES

- Soft conical tip
- Hole in tip
- 6 small suction holes
- Marking
- Universal Connector
- Closing Clip

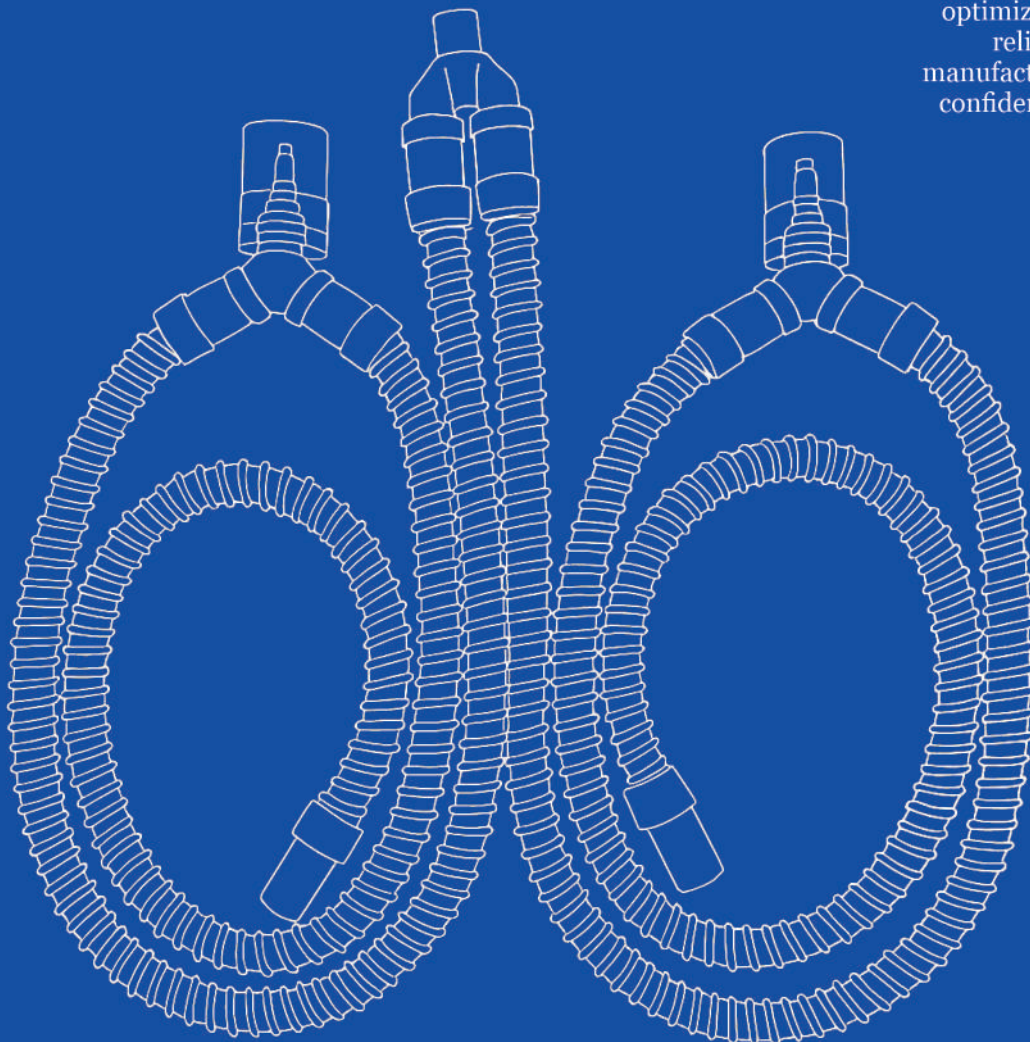

BENEFITS

- No damage to esophagus
- Avoids damage to stomach through vacuum formation
- Avoids sucking mucosa in the tube during leak test
- Exact positioning of tube
- Tube fits to various Luer syringes
- Avoids unintentional leakage of methylene blue

Breathing made safer, with quality you can trust

SILICONE RESPIRATORY CIRCUIT

Enhancing comfort with smooth, flexible design
optimizing respiratory care with durability and
reliability platinum cured zero - defect
manufacturing standards protecting life, restoring
confidence by supporting every precious breath

SiliBreath[®] - Silicone Breathing Hose

Platinum Cured Silicone Hoses for Ventilator & Resiratory Applications

SEVITSIL is the only Indian manufacturer of Silicone breathing hoses.

BENEFITS

- High Tensile Strength
- Safely Connecting
- Kinking Stability
- Flexible
- Reusable
- Sterilizable

Catalog No.	Description	For
SSBH-10 MM	Bore diameter of 8 MM	Neonatal
SSBH-15 MM	Bore diameter of 12 MM	Pediatric
SSBH-22 MM	Bore diameter of 16 MM	Adult

We offer hoses in continuous roll form, with & without connector.

Anesthesia circuit

Material	Silicone
Size	0.5/1/2/3L
Color	Transparent
Feature	Could be used with breathing circuits, ventilator machines and anesthesia

BENEFITS

- Durability
- Safety
- Latex-free
- Reduce the risk of allergic reactions
- Reducing medical waste

FEATURES

- Endure high temperature
- high pressure
- Autoclavable

Stomach tube

Size (Fr)	Lenght (mm)
8	700
10	700
12	1200
14	1200
16	1200
18	1200

FEATURES

- Made of 100% medical grade silicone, the tube is soft and clear
- X-ray opaque line through the whole tube
- Clear depth marks on the tube.

Stomach tube is inserted from the nostril or oral cavity, through the stomach tube from the pharynx to the stomach through the esophagus, mostly used for pumping gastric juice, gastric lavage when acute poisoning, can also be used to inject liquid to and from the stomach to provide patients with necessary food and nutrition, care should be paid attention to avoid gastric tube pollution, and gastric tube propulsive, resulting in aspiration.

Silicone Menstrual Cup

AVAILABLE

- Compression Molding
- Liquid silicone rubber Molding (LSR)

Sevitsil designed menstrual cup is a reusable feminine hygiene product. Cups can hold more blood than any other method, leading many women to use them as eco-friendly alternative against tampons sanitary pads. They are easy-to-use and user centered designs that can be re-used for upto 5 years.

PRODUCT SPECIFICATIONS AND FEATURES

- Comfortable, Safe & Hygiene
- Freedom of movement, activity & also swimming
- Reliable & Long-Lasting
- Infection and Rash Free Solution

Silicone Antimicrobial Products

AVAILABLE

- Antimicrobial Properties
- Durability and Longevity
- Biocompatibility
- Flexibility and Conformability
- Chemical Resistance
- Clean Room Seals

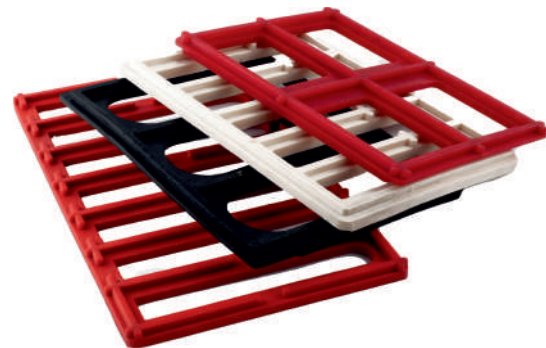

APPLICATIONS

- Biomedical Devices
- Implantation
- Wound Care Application
- Urinary Catheters
- Advanced Wound Dressing
- Prosthetic Devices
- Surgical Drains

Silicone Blister Gasket

BENEFITS

- FDA-Approved Material
- Environmental Resistance
- Flame Retardancy
- Versatility
- Electromagnetic Interference Shielding

Silicone blister gaskets are widely used for blister packing to ensure best quality of sealing on products throughout various shapes & sizes for medical device packaging. Sevitsil manufactures blister gaskets very precisely considering the sealing purpose.

SiliLab - Silicone Products for Laboratory Products

APPLICATIONS

- Cork
- Flange Septa
- Pipette Bulb
- Policeman
- Spreader
- Belt
- Crucible Sleeves
- Teats
- Hand Protector
- Filtration Cone
- Sheet
- Stopper

Polyisoprene Needle Sheath - Needle Cover
